

IQI premium potato-mix and flakes

IQI added value:

General

- IQI has 20 years' experience
- Wide range of options, as well as custom blends
- Stable prices, possibility for a 12-month contract

Portfolio

- Complete range of pure potato ingredients
- Nutritional and sustainable source of starch for grain-free pet food

Applications

- Possibilities to improve the protein content, structure and texture of pet food
- Excellent binding agent

- Custom-made blends that meet any techno-functional demands, allowing 'grain-free' diet-claim
- Solution for extruded and pelleted/cold pressed and snacks production

Sustainability

- IQI potato products are made from co-products of the food industry

Partnership

- IQI has exclusive partnerships with European companies specialized in valorizing potatoes into dry quality ingredients

Supply chain

- Short delivery time

Potato flakes production and application

- Potato flakes can be produced from industrial starch potatoes or they are produced from consumption potatoes at large French fries' producers
- They are typically processing off spec cuts of French fries (before deep frying!!) into potato flakes. These off cuts are ground, cooked, mashed and dried on roller dryers (see picture). The final product is ground again and used in food and petfood as a pre gelatinized potato starch.

IQI Potato-Mix and flakes product portfolio

- Potato-Mix: our standard product
- Potato flakes: fully gelatinized

		Potato mix	Potato flakes
